

24 February 2017

*“Life’s battle don’t always go to the stronger and faster man but sooner or later the man who wins is the man who thinks he can.”*

Term One got off to a great start! The first half of the school year is always very busy with a whole host of activities. Our new teachers have settled in and their contributions are already making a difference!

At Curro Aurora we believe that great teachers do not make it a secret that they care. They go the extra mile. Motivating students by encouraging them, rewarding them and getting them involved shows students that their teacher is vested in their education.

Striving hard for excellence should be the prime objective of a worthy student. Once you stop learning, you cease to grow. In this cut throat competitive world a child carries the load of expectation of teachers, parents and peer group. Therefore, it becomes absolutely necessary for a child to plan, prepare & perform well right from the very beginning.

The pace in the classroom is quick. As parents it is therefore important to encourage your child to stay on top of their assignments and responsibilities so they don’t fall behind.

School attendance is not negotiable and missing tests or exams for any other reason other than serious illness(as confirmed by a registreed medical practioner) or school related activities, will result in students receiving zero for the assessments they might have missed. Academic dicipline is the key to continued improvement and success. Thank you for your support in this regard.

Every child is potentially the light of the world. And thus goes our motto “Carpe Diem”. We at Curro Aurora light a fire within the child so that he/she can fly and seek new heights.

Enjoy the last month of summer and may God bless you!

JC Engelbrecht

Excecutive Head
