CURRO

Westbrook

At Curro Westbrook, we strive to make every day a learning day, filled with new and wonderful experiences to help young learners find what interests and inspires them. Curro Westbrook is that special place where play is valued, voices are singing, children are engaged in creative movement and music making, artistic expression is celebrated and the academic programme is stimulating and fun.

Foundation phase: Grade R to Grade 3

In the foundation phase, we focus on teaching the foundational skills, concepts and knowledge which are required for further learning. We offer a vibrant, invitational atmosphere where the learners enjoy coming to school and where they acquire a love for learning that will sustain them throughout their school years. We acknowledge the potential in each learner to reach optimum ability; therefore, there is less emphasis on competitiveness and more emphasis on individual achievement. We create opportunities for personal growth in independence and responsibility so that learners can take up the challenge of being personally responsible and accountable for their actions in the intermediate phase.

Subjects

The three main learning areas are:

Language – English home language and Afrikaans as first additional language.

Mathematics – Mathematical concepts, number concepts and practical application.

Life Skills – Skills from a variety of learning areas will be included under Life Skills

Also:

Perceptual development forms an integral part of all learning in the foundation phase, and includes gross motor skills, sensory motor integration, perceptual motor skills and language development. Robotic lessons form part of the curriculum.

Cultural activities could include:

Choir, music, art, drama and chess

Sports activities:

Cricket, hockey, tennis, rugby, athletics, mini-netball, ball skills, swimming and soccer

Intermediate phase: Grade 4 to 7

(Grades being phased in annually)

In the intermediate phase, the emphasis is still on establishing basic foundations but learners are led into more abstract thought and independent work. Application of skills and concepts is also a focus in this phase. This phase aims to prepare learners for the senior phase in high school.
