GRANTLEIGH

Junior preparatory phase: Grade R to Grade 3

In the junior preparatory, we focus on teaching the foundational skills, concepts and knowledge which are required for further learning. We offer a vibrant, invitational atmosphere where the learners enjoy coming to school and where they acquire a love for learning that will sustain them throughout their school years. We acknowledge the potential in each learner to reach optimum ability; therefore, there is less emphasis on competitiveness and more emphasis on individual achievement. Through 21st century methodology we are promoting the skills of communication, collaboration, thinking/problem-solving and creativity and innovation. We create opportunities for personal growth in independence and responsibility so that learners can take up the challenge of being personally responsible and accountable for their actions in the senior preparatory phase.

Subjects

The three main learning areas are:

Language – English home language and Afrikaans first additional language.

Mathematics – Mathematical concepts, number concepts and practical application.

Life Skills – Skills from a variety of learning areas will be included under Life Skills.

Also:

Perceptual development forms an integral part of all learning in the foundation phase, and includes gross motor skills, sensory motor integration, perceptual motor skills and language development. Computer lessons form part of the curriculum as well as art and music.

Cultural activities include:

Junior preparatory choir

Sports activities:

Grades 1 to 7

Swimming, cricket, tennis, Sharks Kidz, hockey, netball, rugby, athletics and soccer

Senior preparatory phase: Grades 4 to 6

In the intermediate phase, the emphasis is still on establishing basic foundations, but learners are led into more abstract thought and independent work. Application of skills and concepts is also a focus area in this phase. This phase aims to prepare learners for the senior phase in the high school.

We aim to embrace 21st century learning by incorporating the use of tablets into our classrooms. We currently raise children who are 'digital natives'. By embracing this innovative technology into our schools, we are speaking the language our learners understand.
