

## WORD FROM THE EXECUTIVE HEAD

Thank you for your enquiry regarding Curro Krugersdorp – we look forward to welcoming you to our school, should you decide to place your child/children with us.

Curro Krugersdorp opened its doors in 2013 and has since grown from strength to strength. As the first Executive head of the school, I was part of this exciting journey and my vision is that Curro Krugersdorp will become the school of choice on the West Rand, always aiming to provide a nurturing environment where learners and staff can develop to their fullest potential.

Our school consists of separate campuses: a nursery school, primary school and high school, all within a two kilometre radius. This allows for convenience and age-appropriate, focussed education. Each campus has an experienced and dedicated head who manages the operations at that specific campus.

Parallel medium education is offered from nursery school to grade 9 and dual medium education from grade 10 to 12.

In our multicultural environment our learners experience a holistic and relevant education firmly grounded in values that reflect our Christian ethos. It is important that young people have a strong moral compass, basic good manners and respect. Our aim is that every boy and girl should leave our school fulfilled and prepared for the next stage of their life. Essential components to such an education are excellent teaching and pastoral care, a wide range of extramural and co-curricular opportunities and first-class facilities to name a few.

A 21st century approach to education and a commitment to the pursuit of excellence in all aspects of education make learning exciting and stimulating. Curro Krugersdorp nurtures creative thinkers who can face the challenges of their future. We embrace technology and offer an enriched curriculum relevant to South African and international needs. Our educators are well-qualified and enjoy ongoing, quality training in this stimulating environment. The result is committed and passionate educators who are also life-long learners.

At Curro Krugersdorp culture and sport form an integral part of our tuition as it builds self-confidence and contributes to loads of fun. Our focus is on the development of skills and technical abilities and we afford our learners the opportunity to compete at school and higher levels of participation.

Last, but not least, the interests of our learners always come first.
