

NCV: FINANCE, ECONOMICS AND ACCOUNTING

The Finance, Economics and Accounting programme is aimed at learners who are interested in pursuing a career or further studies in the commerce industry. The programme is predominantly skills-focused and integrates with academic knowledge.

The programme follows the National Certificate Vocational (NCV) curriculum. Successful learners receive a qualification at the end of each academic year.

The programme seeks to provide learners with essential industry-related skills, simulated practical and work experience and improve a learner's employability post qualification.

Curriculum

No-homework model

**Progressive education through a modern
technology-rich environment**

What can I do with an NCV 4 in Finance, Economics and Accounting?

- Go to university
- Go to college
- Join the workforce
- Start my own venture

What will I learn?

- Industry-standard accounting software
- End-user computing
- Entrepreneurial skills
- Financial planning
- Interpretation and understanding of the economy
- Accounting principles and application

Why is this the right place for me?

- I know that I want a career in commerce.
- I want to develop skills that will be useful in the workplace.
- I want to have access to experts in the industry.
- I don't want to study subjects that will not benefit my career choice.
- I want to go to university and study in this field, and want a better foundation for what is required.
- I want to be able to use technology in teaching and learning.
- I want teachers who understand and provide me with individual attention.
- I want to be able to simulate workplace experience.
- I want to make the most of my school day and not have to do homework and projects late at night and over weekends.

Entry requirements

- Grade 9 certificate
- Maximum age restrictions apply per year
