

## Welcome to Land of Oz Nursery Schools

Thank you for considering Land of Oz to partner with you in this wonderful educational journey your child is about to embark on.

At Land of Oz Nursery Schools, we implement a rich and appropriate curriculum, consistent with Biblical principles.

We believe that children are a gift from God. We strive to walk as partners with families, by helping each child to grow to his and her individual full potential, in an environment surrounded by love and respect.

We make optimum use of the nurturing environments where dedicated, competent staff display a genuine love and concern for the well-being of our children.

Young children absorb everything through play and play is the highest form of learning. While they are playing, they are learning skills for life. They are learning to develop their curiosity, learning to problem solve, learning to engage in conversation, learning to play with one another. Our programme lays the foundation on which all formal learning can be built. At Curro Land of Oz everyone is valued – big or small!

We invite you and your child to come and experience our beautiful schools today.

We look forward to welcoming you to the Curro family.
