

Curro's Wider Subject Choice IS YOURS

Do you want the freedom to choose from a broader range of subjects than your school offers and not be limited by the physical location of your school or home?
We have the answer!

With our new learning approach and wider subject choice offering, we give every Curro learner (from Grades 8 to 12) the opportunity to personalise their learning. You can now choose almost any combination of subjects at Curro because the subjects not on offer at your school are provided digitally.

Subjects on offer across different grades							
Subject	Grades					IEB	NSC
Accounting			Grade 10	Grade 11	Grade 12	✓	✓

Visual Arts			Grade 10	Grade 11		✓	✓*

*NSC only available up to Grade 10 in 2024.

**Only available as an extra/eighth subject in 2024.

How the new wider subject offering works

The live, teacher-led digital classes occur during normal class times. A teacher leads five lessons per ten-day cycle (live, digitally) and tutors provide support for the other five tutorial lessons.

CURRO

Your immediate benefits

- A broader range of subject choices without timetabling or subject group limitations
- You can take additional subjects without having to take subjects at external providers
- Increased connectivity across all Curro schools
- The subjects are offered by a group of teachers (learner numbers permitting), so you have access to the knowledge and experience of our best teachers

Other benefits

Subject specialisation

You are able to pursue your unique interests, and learners who successfully develop the ability to make personal learning choices lay a foundation for lifelong, self-directed learning.

You will acquire 21st-century skills

Collaboration and teamwork, creativity and imagination, critical thinking, problem-solving, digital literacy and citizenship are taught.

Your learning is future-proofed

Creating building blocks for greater learning leads to increased lifetime earnings and career options.

It's uncomplicated

A simple-to-follow programme is presented by experienced, dedicated teachers. Learners have live lessons based on a structured timetable that includes time for self-directed study.

Your lessons and learning materials are easy to access

All lessons are recorded and always available to the learner, along with additional learning material.

The quality of your education is guaranteed

The internationally recognised IEB curriculum as well as the DBE curriculum in all subjects are brought to you by a proven educational institution.

Your parents don't have to be looking over your shoulder all the time

Learners work at their own pace or according to a set timetable, while continuous progress reports are provided to parents.

You get personalised feedback

Each learner is assigned a class that has a dedicated teacher tracking their progress in that subject.

Fuss-free communication for yourself and your caregivers

You benefit from a single point of contact via phase heads.
