Life is like a blank page waiting to be filled with amazing memories and adrenaline-packed adventures. Make the most out of every single day. Live your life to the fullest and make sure that you are fulfilled at the end of every day. A satisfied life is better than a successful life because our success is measured by others but our satisfaction is measured by our own soul, mind and heart.

Tomorrow starts today. If you want to achieve your dream, don't procrastinate. The way to get started is to quit talking and begin doing. If you do not go after what you want, you will never have it. If you do not ask, the answer is always 'no'. If you do not step forward, you are always in the same place.

People with a purpose, goal, and vision have no time for drama. They invest their energy in creativity and focus on living a positive life. Do not downgrade your dream just to fit in your reality. Upgrade your conviction to match your destiny. There are no limits to what you can accomplish, except the limit you place on your own thinking. Magic is believing in yourself. If you can do that, you can make anything happen. Understanding is deeper than knowledge. There are many people who know you but very few who understand you.

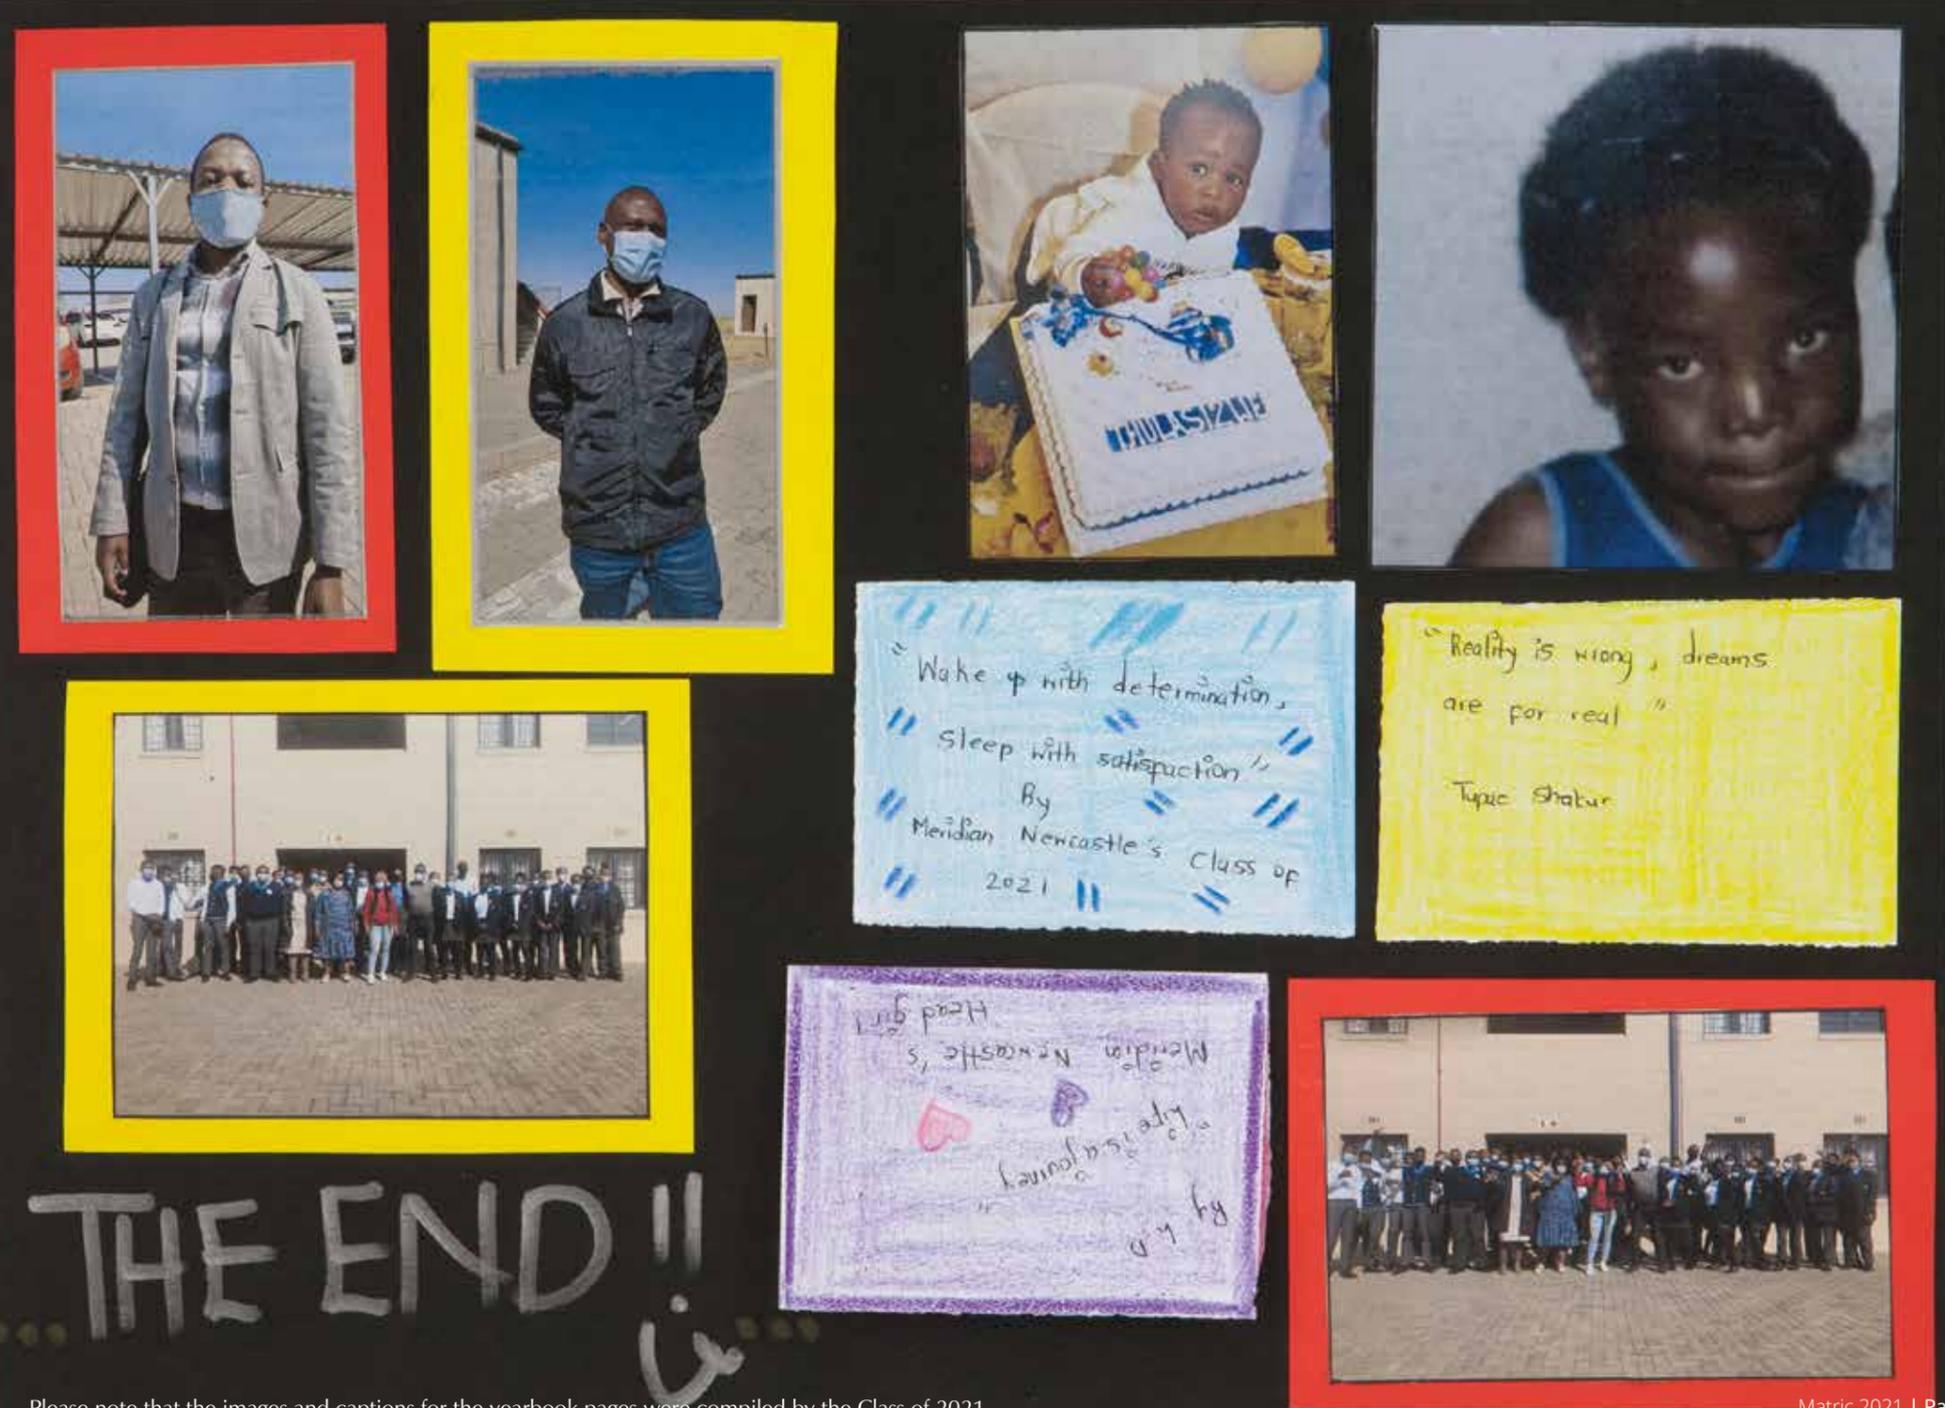

Understand the knowledge you gain in the classroom. Do not worry about failures, worry about the chances you miss when you do not even try. Your life is your own. Do not waste it trying to be what others expect you to be. Do not sacrifice your happiness to

make everybody happy. Do not give up on your dreams to build other people's dreams. Be who you want to be. Build your own dreams, or someone else will hire you to build theirs. Everything you want is on the other side of fear.

The greatest discovery of all time is that a person can change his future by merely changing his attitude. If you are serious about changing your life, you will find a way, if not, you will find an excuse. Excellence is an art won by training and habituation. We do not act highly because we have virtue or excellence but we rather have those because we have acted in the right manner. Remember that everyone's journey is different. Things always get better with time. Positive thoughts create positive things. Opinions do not define your reality. If you feel like you are losing everything, remember that trees lose their leaves every year and still they stand tall and wait for better days to come.

Teamwork is the ability to work together toward a common vision. It is the fuel that allows common people to attain uncommon results. The best teams have chemistry. They communicate with each other and they sacrifice personal glory for the common goal. Twenty years from now you will be more disappointed by the things that you did not do than by the ones you did do. So, throw off the bowlines, sail away from the safe harbour, catch the trade winds in your sails

Explore, dream and discover. Always do your best and don't let the pressure make you panic.
