Junior preparatory phase (Grade R to Grade 3) Grade R

In Grade R we focus on an integrated play-based curriculum with specialised educational programmes:

- The **phonological awareness programme** which is explicitly taught in small groups and this includes interactive games
- The **Bazoo integrated literacy programme**
- The **NumberSense programme** which is a learner-centred approach where problem solving is the starting point
- Introduction to **Robotics** through Duplo Lego

Grade R is the bridge from the concrete world to the world of symbols and numbers in Grade 1.

Grade 1 to Grade 3

In these grades the focus is on perceptual development, exposure to relevant content, skills and knowledge which are required for further learning. We offer a vibrant, invitational atmosphere where the learners enjoy coming to school and where they acquire a love for learning that will sustain them throughout their school years. We acknowledge the potential in each learner to reach optimum ability; therefore, there is less emphasis on competitiveness and more emphasis on individual achievement. We create opportunities for personal growth in independence and responsibility so that learners can take up the challenge of being personally responsible and accountable for their actions in the senior preparatory phase.

Senior preparatory phase (Grades 4 to 7)

In the senior preparatory phase, the emphasis is still on establishing basic foundations, but learners are led into more abstract thought and independent work. Application of skills and concepts is also a focus area in this phase. This phase aims to prepare learners for the senior phase, which starts in Grade 7 and continues in the high school.

We aim to embrace 21st-century learning by incorporating the use of tablets in our classrooms. We currently raise children who are 'digital natives'. By embracing innovative technology into our schools, we are speaking the language our learners understand.
