CURRO

DIGITAL

Here's an introduction to us!

Thank you for your interest in our school! We go to great lengths to create a welcoming environment where children enjoy coming to school and develop a life-long love of learning.

As a Curro Digital School, we accommodate learners from Grade 7 to Grade 12 with a unique approach of digital learning in class. We combine traditional learning with modern platforms such as Moodle, with an open-plan approach to classrooms so that teachers can easily move between learners to help where they are needed.

Here is a brief overview of what we offer our learners

Digital learning in a class environment

Instead of following the lead of a teacher in front of the classroom, learners work through the learning material themselves (still within a framework). They do this by studying textbooks, videos, simulations and tutorials as many times as they need to understand the material. When learners have questions, the teacher comes to them to offer individual help for as long as they need.

Open-plan approach to classrooms

In order to support the digital learning environment, our classroom layout takes a more open-plan approach. This allows teachers to move between the learners easily and notice which learners require individual attention. Classroom sizes are limited and our classrooms are separated by grade.

Longer school hours and limited homework

Our schools are generally situated in the heart of a city or in areas where we identified many of our community's parents work. Our longer school hours, along with early drop-off and late pickup times, include a full lunch hour and accommodate the schedules of working parents. Homework is given mostly for revision purposes and is typically completed in class. This means that home time can be family time.
