

ClassDojo

CURRO
Academy
Clayville

As part of our school's discipline system, we have decided to make use of a communication application in our classrooms called ClassDojo. ClassDojo is a simple, yet exciting, way for our teachers to connect with the learners and parents. During a school day our learners are encouraged to have a growth mindset and to pursue values in the classroom that encourage responsibility and respect for their teachers and peers. This application serves as a unique platform where all parties can share photographs, videos, stories and messages – allowing us as a school to keep communicating and having great fun whilst we do so! By working as a team we hope to expand the walls of our classrooms so that we can engage with the many families who become part of our big family here at school.

If you as a parent would like to get in touch with your child's digital classroom, please ask the relevant register teacher for details regarding your individualised access code.

How to download ClassDojo?

Please click on the links below to direct you to the relevant ClassDojo help page.
