

HIGH SCHOOL

WATERSTONE COLLEGE

Our goal is to develop responsible, independent and proud individuals who will make a positive contribution to society.

Our ethos is governed by Christian values (ethics and morals) where learners are encouraged to explore and express their individuality within acceptable boundaries, and ultimately take responsibility for their actions.

Our dynamic curriculum covers problem-solving, critical thinking and the development of skills and values. Both individual and group work are evaluated.

Learners from Grade 8 onwards use tablets in the classrooms rather than textbooks. This further helps to prepare them for the ever-changing realities of an increasingly digital-dependent world.

Learners are prepared for the matriculation examinations set by the Independent Examinations Board (IEB).
