## CURRO Waterfall

**Our goal is to develop responsible, independent and proud individuals who will make a positive contribution to society.**

Our ethos is governed by Christian values (ethics and morals) where learners are encouraged to explore and express their individuality within acceptable boundaries, and ultimately take responsibility for their actions.

Our dynamic curriculum covers problem-solving, critical thinking and the development of skills and values. Both individual and group work are evaluated. High-school learners may use tablets or laptops rather than textbooks or as an additional learning resource.

Curro Waterfall produces a community of teenagers who know how to think innovatively, express their ideas and take charge of their own lives.
