Hoewel dit voel asof 2021 vinniger as ander jare verby gevlieg het, is dit 'n jaar wat ons as matrieks altyd sal onthou. Ons as die Klas van 2021 staan op die punt om 'n groot hoofstuk in ons lewens af te sluit en 'n nuwe een te begin. Hoewel daar goeie en slegte tye was, het die skool ons baie gebied en ons sal eendag kan terugkyk na 'n vreugdevolle hoërskool-loopbaan. Onder die huidige omstandighede is dit maklik om onseker te voel oor die nuwe lewe wat op ons wag, maar daar is miljoene matrieks wat dieselfde voel – wat ook by die deur van 'n nuwe lewe staan. Dit sal 'n aanpassing wees om uit die roetine te kom van die afgelope 12 jaar, maar dit is die moeite, hartseer en optimisme werd.

I wish to motivate my fellow matric learners with a quote by Babe Ruth who said, 'Never let the fear of striking out stop you from playing the game'. So, I encourage each one of you to believe in yourself, take chances and don't let the fear of failure stand in your way! All the best for the upcoming exams. May all your hard work be rewarded with great results.

Aan dié wat agterbly wil ek net vra: Hou jou skool se naam hoog. Geniet jou skoolloopbaan. Dit gaan gouer verby as wat 'n mens dink. Daar sal tye kom wat jy voel asof jy vasgekeer is onder werk, maar opgee is nie 'n opsie nie. Sukses is nie iets wat maklik bereik word nie. Werk hard, luister in die klaskamer en gee jou beste. Onthou, tyd kan jou eie vriend of jou eie vyand wees afhangende van hoe jy jou tyd bestee. Maak die beste van elke oomblik sodat jy ook eendag met 'n gevoel van tevredenheid kan terugdink aan al die herinneringe.

Throughout my high school career, I have been grateful to have had a positive experience! I have had encouraging teachers who care and put in effort to ensure a conducive learning environment, I have had friends who make coming to school fun and exciting and I've had opportunities to try new things, learn and grow in many facets of my life. I think I can speak on behalf of many high school learners when I say that I was looking forward to my matric year the most. This year is always made out to be filled with many fun things and a time where we make unforgettable memories.

I would, however, be lying if I said that this year was everything I looked forward to. Unfortunately, it was rather a year filled with unmet expectations. We were constantly dealing with changing circumstances, uncertain outcomes, and disappointments – all out of our control. This, combined with the stress and pressure of academic performance truly made this year a challenging one. But what is a challenge if not worth a shot of overcoming it? While every hit that came our way was a chance to give up, it was also an opportunity to learn and grow – as this quote by Joyce Meyer says, 'We don't grow when things are easy, we grow when we face challenges'. This year taught us to dig deep and also showed us the extent of our own abilities. It was an opportunity for us to bond with our peers who were all going through the same thing, to rely on each other, uplift, and comfort one another and make the most fun out of our situation!

Looking back at this year, I know that I won't necessarily remember all the things that we missed out on, but rather all the things I learnt, both in and out of the classroom, that shaped me as a person.
